Amravati, Maharashtra

CAREER OBJECTIVE

Motivated Computer Science student with a strong foundation in HTML, CSS, JavaScript, and MySQL, and working knowledge of database management, and full-stack web development. Exposure to Bootstrap, cloud computing fundamentals, and process automation, with a keen interest in building scalable, user-friendly applications. Seeking a Software/Web Development internship to apply technical skills, contribute to real-world projects, and gain hands-on industry experience while continuously growing as a developer.

EDUCATION

B.Tech in Computer Science

2023-2027

PR Pote Patil College of Engineering and Management, Amravati

KEY HIGHLIGHTS

- Built 2 full-stack web applications independently, covering front-end design, back-end logic, and MySQL database integration
- Completed 2 virtual internships in Android and Java Full Stack development through EduSkills
- Solved 100+ coding problems across HackerRank and LeetCode, strengthening DSA and problem-solving skills
- Hands-on exposure to Git version control and collaborative development workflows using VS Code

TECHNICAL SKILLS

- Programming Languages: C, C++, Java, JavaScript Web Technologies: HTML, CSS, React, Node.js Database: MySQL
- Cloud & Automation: Basics of Cloud Computing, Automation Tools & Concepts Core Subjects: Data Structures, DBMS, Operating Systems, Computer Networks Tools & Platforms: Git (Basic), GitHub, VS Code, MS Office
- Concepts: OOP, RDBMS, Responsive Web Design, Basics of SDLC

PROJECTS

Smart Farming Assistance System

- Developed a data-driven system to recommend suitable crops based on soil and environmental data
- Integrated a MySQL database for efficient storage and retrieval of agricultural data
- Designed a responsive user interface using HTML and CSS for ease of use by farmers
- Applied basic data analysis techniques to improve the accuracy of crop recommendations

SwiftMed – Healthcare Application

- Built a web-based healthcare management system to handle patient records and appointments
- Developed modules for patient registration, appointment scheduling, and data management
- Improved user experience through structured, intuitive UI design
- Utilized HTML, CSS, JavaScript, and MySQL for full-stack development
- Implemented form validation and structured database queries to ensure data accuracy

CERTIFICATIONS

- Google Android Developer Virtual Internship — EduSkills
- Java Full Stack Developer Virtual Internship — EduSkills
- Database Management System — NPTEL

ACHIEVEMENTS & ACTIVITIES

- Actively learning Data Structures and Algorithms for coding interviews
- Solved problems on coding platforms such as HackerRank and LeetCode
- Participated in technical learning programs and virtual internships

Areas of Interest: Full-Stack Web Development, Database Design & Management, Cloud Computing & Automation
